Education

University of California San Diego

San Diego, CA

DOUBLE B.S. MATH AND COMPUTER SCIENCE, CLASSICAL STUDIES MINOR | GPA: 3.9

June 2024

• Relevant Coursework: Graduate-Level Operating Systems, Compilers, Networking, Cryptography, Algebra, Analysis

Experience

Tock Operating System (7)

San Diego, CA

RESEARCH SOFTWARE ENGINEER

June 2023 - Current

Contributed to networking stack in Rust by adding syscalls and designing interfaces to securely run OpenThread on Tock.

Working on formally verifying Tock to prove memory isolation guarantee can never be violated %.

 Viasat
 Carlsbad, CA

 SOFTWARE ENGINEERING INTERN
 June - September 2023

• Ported Linux drivers to latest kernel for software router. Researched kernel changes to update deprecated function calls.

- Did bringup of drivers on OpenWRT based OS and debugged issues across the OS and networking stack by using strace and gdb.
- Maintain backwards compatibility of new OS by containerizing code with **LXC containers**.

TwitterQUALITY ENGINEERING INTERN

September - December 2021

Designed fault tolerant integration with testing framework that catalogues automated test results for manual testers.

- Used Java stream processing to aggregate test results in real time, enabling analytics on historical test results.
- Spoke with key stakeholders to design a solution. Worked with multiple teams to make sure solution can be adopted company-wide.

Projects

Triton Unmanned Aerial Systems

C++, Python

PROGRAMMER

Dec 2020 - Current

- Collaborating with team to design, build, and fly an unmanned aerial vehicle (UAV). Placed 5th place internationally.
- Built a 3D real time dynamic path planning system using RRT*. Created model to detect unknown obstacles and avoid them.
- Created robust testing framework to simulate and visualize generated paths.

IDE Profiler Visualizer ○Python, Typescript

• Made VSCode extension which inserts novel performance profiling visualizations into IDE.

November 2023

Snek Compiler

- Rust, x86
- Created compiler in Rust from Python subset to x86 assembly with a custom breakpoint debugger using ptrace.
- June 2023

• Supports IO, heap, garbage collection, comments, debug statements.

IP Networking Stack
Implemented IPv4 compatible router in C that can send/receive/forward ARP, ICMP, and IP packets.

Apr 2023

Deep Neural Networks from Scratch

NumPy, PyTorch

• Wrote IBM machine translation; deep neural network (MLP) from scratch with no libraries for CIFAR-10.

- Sept 2022
- Used PyTorch to implement image captioner (LSTM+CNN) on CoCo; Fine tuned BERT for Alexa intent classification.

ACM Attendance Visualizer ©

FULLSTACK DEVELOPER Sept-Dec 2020

• Developed online dashboard for analyzing the organization's event attendance data, using D3, Express, React, and PostgreSQL.

• Defined schema, implemented protected backend data processing routes, and documented APIs using Postman %.

Triton Schedule Scraper 🗘

Python, Tkinter, Selenium WebDriver

• Python script uses WebDriver and automatically scrapes UCSD course schedule to create an iCal file.

Oct 2020

React

• Created native GUI for the program using Python and Tkinter.

DIY Projects

- Have built: mechanical keyboard, FPV quadcopter, maintain a home (computer) lab, analog turntable using household parts, trackball (WIP) — design CAD and electronics for ergonomic mouse, air filter — 3D printed and CADed to combat indoor wildfire smoke.
- Latin poetry reader (prosody) Python script uses Text-to-Speech API and morphs audio to match dactylic hexameter rhythm.
- $\bullet \ \ \text{Ancient Greek keyboard firmware mod} \text{custom QMK firmware that natively supports Ancient Greek and its accents}.$

Awards

Xerox Award for Innovation and Information Technology

2019

Skills

Language Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, Java, C, C++, Rust, JavaScript, TypeScript, SystemVerilog, Bash, Interpretable Python, TypeScript, SystemVerilog, Bash, I
